

# DS-Live™

DS-Live™ Online Portal.

Data Signs RM-320 Sign Controller.

DS Live™ is a web-based application developed in-house by Data Signs Pty Ltd. It allows you to manage your fleet of Data Signs' products: -

- Variable Message Signs (VMS)
- Portable Traffic Lights (PTL)
- Variable Speed Limit Signs (VSLS)
- Arrow Boards (*coming soon*)

DS Live™ also allows you to view each product's operational status including GPS location, battery voltage, brightness, any active alarms, message displaying and much more

### DS-Live™ FEATURES: –

- ✓ DS-Live will continually monitor your Sign/s and advise if actions are required.
- ✓ This platform provides an easy-to-use interface.
- ✓ Real time & fast updates of Messages when fitted with Data Sign SIM cards
- ✓ Streamlined Dashboard & user friendly
- ✓ Continually improving and enhancing new features
