

PLT FIRMWARE UPGRADE - SERIES-II

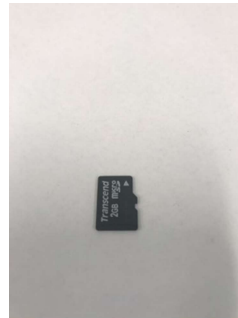

Version 4.02.07

Current as at 20-05-2019

Version 5.00.09

Current as at 20-05-2019

Firmware upgrade is embedded on the SD Card.

To Upgrade firmware:

- Switch power of to controller
- Remove existing SD card and place new one in
- Switch power back one
- Upgrade will take place.. **"DO NOT REMOVE SD CARD OR SWITCH OFF POWER DURING THIS PROCESS"**

Discard old SD card and leave new one in controller, this is now registered as the new one to use for this controller.

Note: The existing controller serial number is retained.

FIRMWARE UPGRADE COST \$ 35.00 + GST & Shipping. PER CONTROLLER (SD CARD)

NOTE: OPERATION BETWEEN SERIES-II Version 4 and 5 NOT RECOMMENDED DUE TO HARDWARE AND FIRMWARE INCOMPATIBILITY DIFFERENCES.

SERIES-I CONTROLLERS (YELLOW METAL ENCLOSURE TYPES) ARE CONSIDERED LEGACY AND REPLACEMENT RECOMMENDED – FUNCTIONALLY FOR THESE IS ONLY MASTER-SLAVE AS A SET
