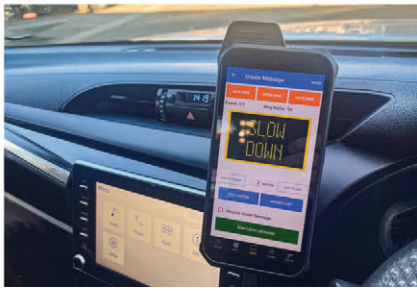
DATASIGN-UTE-SKID

VMS-A MESSAGE SIGN



The DATASIGN–UTE-SKID is designed and manufactured by Data Signs Australia. It is designed to be placed on or off the back of a UTE Tray Truck easily by using a forklift.

The SKID is fitted with an A size 5-Colour VMS-Sign.

An Arrow-B sign can also be fitted to this assembly.

Installation and operation could not be easier than a 12V supply from the Ute or with an auxiliary 12V Battery.

Control for the Arrow and programming for the VMS Sign is done via the ST-1 Remote which is operated in the Vehicle Cabin, no wiring needed.

GPS Tracking and programing via the DS-Live platform is an option that can also be fitted, allowing the vehicle to be monitored and tracked live.
